Register

This is the register screen. This will allow users to register for an account. The information will be saved so the user can log in later if needed.

The image shows a web browser window titled "Login". At the top center is a cartoon illustration of a slice of pepperoni pizza. Below the pizza are two input fields: "Email:" followed by a text box, and "Password:" followed by a text box. To the right of the password box is a small blue link that says "Forgot Password?". At the bottom left is a dark blue button labeled "Back", and at the bottom right is a dark blue button labeled "Login".

This is the log-in screen. This will allow the user to be able to log in using their created account. It will also be able to take users to a screen to change their password if they have forgotten.

- Jalapeno Peppers

Small Drink Pepsi

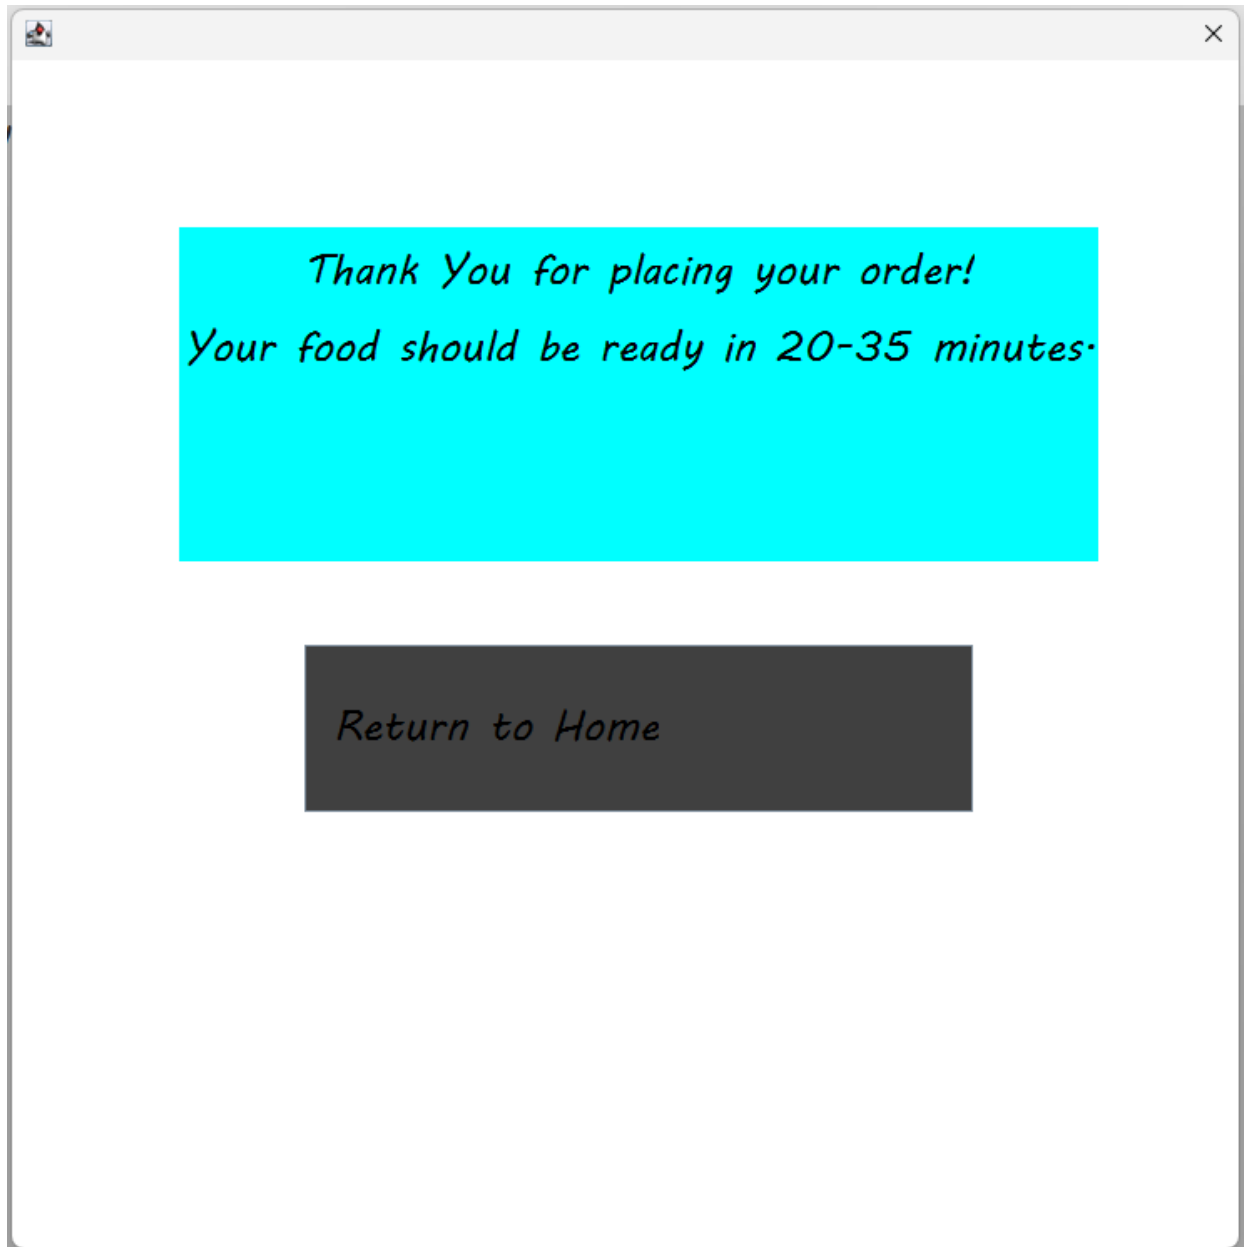

This is the order screen. The user will be able to select items to order and the selected items will be displayed on the right side of the screen.

A screenshot of a software window titled "Change Card Info" with a close button (X) in the top right corner. The window has a light gray border and a darker gray background for the main content area. The title bar is white with a small icon on the left and the text "Change Card Info" in the center. The main content area contains the following elements:

- A large, stylized, cursive text "Change Your Card Information" in a dark gray font, centered at the top.
- A horizontal row of three radio buttons with labels "Cash", "Check", and "Card" below them. The "Cash" radio button is selected.
- Three input fields for card information, each preceded by a label in the same cursive font:
 - "Card Number:" followed by a white rectangular input field.
 - "Expiration Date:" followed by a white rectangular input field.
 - "CVV:" followed by a white rectangular input field.
- A rectangular button with the text "Confirm Changes" in a standard sans-serif font, located at the bottom left of the main content area.

This is the change payment information screen. It will allow users to change their preferred payment type and change the information associated with that payment type.

This is the thank you screen. This is just to print out a thank you to the users for placing an order. It will also display the time frame in which the order will be ready.

This is the personal information screen. There will be a personal information screen for users and for employees. Users will be able to change their information, but only managers can change employee information.

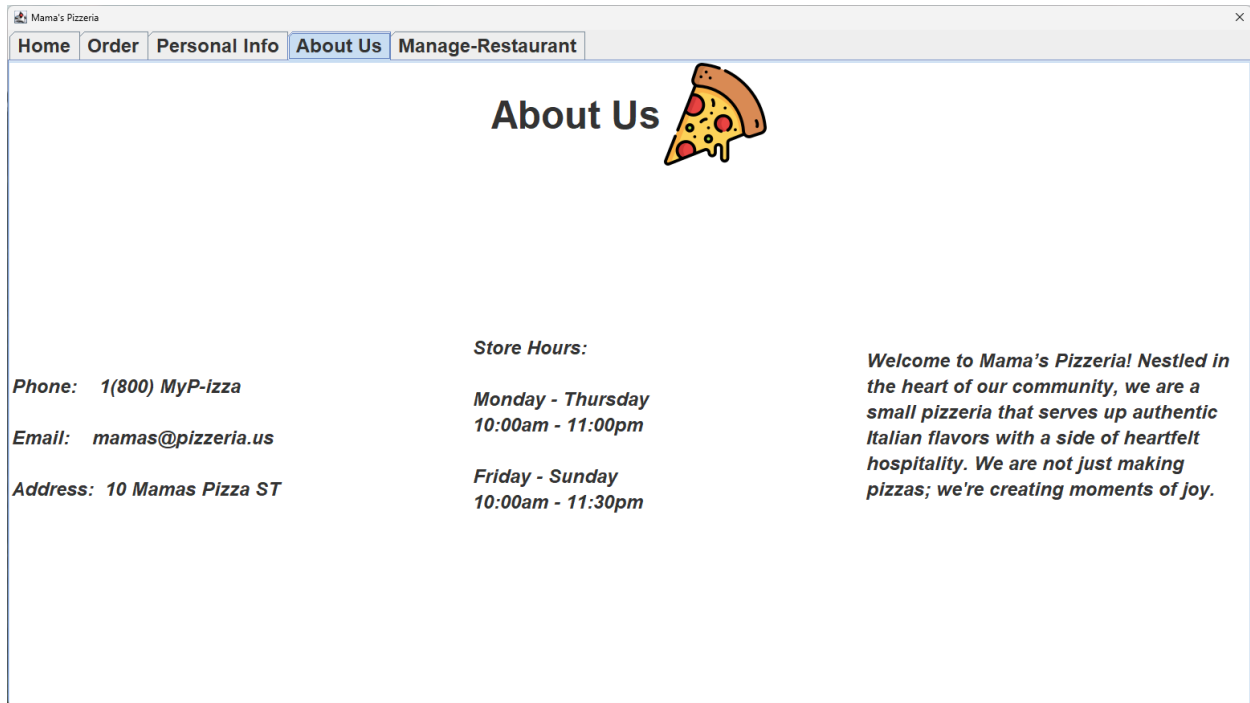

The image shows a software window titled "Edit Personal Info" with a close button (X) in the top right corner. The window has a light gray background. It contains several input fields for personal information, each with a label below it:

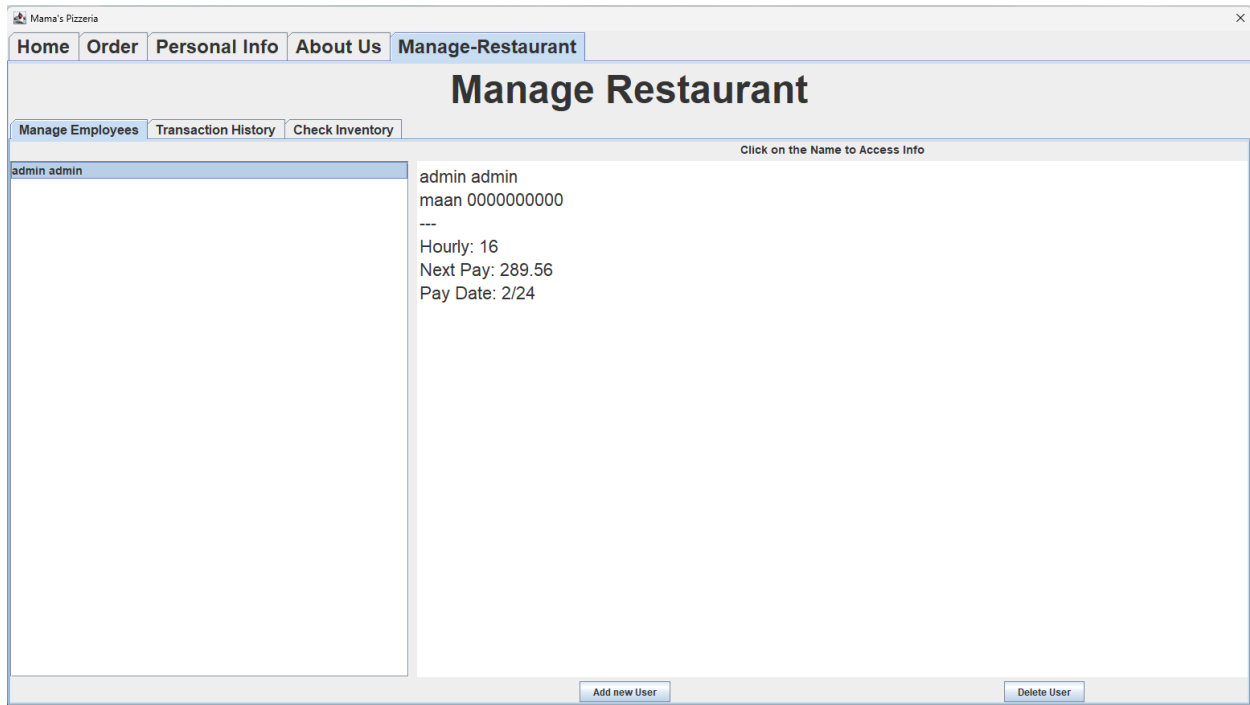

- A single-line text input field with the label *Address:* below it.
- Two single-line text input fields side-by-side. The left one is labeled *City:* and the right one is labeled *Zip:*.
- A single-line text input field with the label *Phone:* below it.
- A single-line text input field with the label *Full Name:* below it.
- A single-line text input field with the label *Email:* below it.
- A single-line text input field with the label *Phone:* below it.

At the bottom of the window, there are two buttons: "Back" on the left and "Save" on the right. Both buttons have a light blue gradient and a thin border.

This is the edit personal information screen. This will allow the user to make changes to the personal information on their profile.

This is the about us screen. This is to show some basic information about the restaurant: store hours, contact information, and a small bio.

This is the manage restaurant screen. Only managers will be able to access this screen. It will allow managers to manage employee's information, check the restaurant's transaction history, and check the restaurant inventory.
